Summary of Qualifications

I am a Front-end Developer with 1+ year of experience in producing adaptive cross-browser layout in single-page applications or websites and mobile applications. Capable of continuous learning from senior developers helping companies to create and maintain a better code base for reusability.

I have strong knowledge of JS, HTML5, and CSS3. I am willing to support in, work in, and be part of an international team. I'm self-organized, reliable, able to work as a team-player or independently. Not afraid to get in touch when problems arise so as continue to find ways to maximize user efficiency. I do my job with passion for both personal growth and for software development.
